

Internship Report

Neumann Systems Consultancy Private Limited offers Galaxy, Integrated ERP Solution Suite . It helps with the following services:

- Business process consultation and audit
- Process reengineering
- ERP system implementation
- Business specific customization of systems
- Development and implementation of application specific innovative solutions
- Continuous enhancement for processes and systems

I have worked with the tech team of Neumann Systems Consultancy Private Limited under the guidance of Mr. Rohit Kulkarni as an intern from May 25 2023 to July 5 2029.

My responsibilities at Neumann Systems Consultancy Private Limited was to debug and run their python scripts which link their databases. I have also worked with processing and categorizing of data from master key format to the formats required for each bank individually.

Apart from the technical knowledge I have gained working with python scripts and database management, I have also learned a lot about the corporate environment, the importance to meet the deadline, communication with people in a formal way at an office.

Neumann Systems Consultancy Private Limited helped me to improve my skills in python language, introduced me to the database management systems, and improved my communication skills.
